12 July 1961

MEMORANDUM FOR THE RECORD

Mr. Henry Robbins of Alfred A. Knopf, Incorporated, telephoned on 11 July to express interest in a report which he had from "a very good source" that General Cabell was writing a book on modern intelligence.

I told him I believed he had been misinformed and that General Cabell had no plans to write such a book. He asked me to convey his expression of interest to General Cabell.
